FLIR®

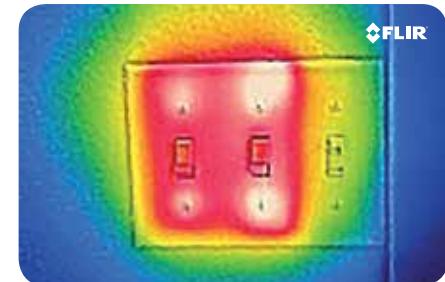

The World's Sixth Sense®

FLIR THERMAL IMAGING CAMERAS

Just like not all electrical applications are the same, not all users are the same either. Which camera that suits your needs depends on both your application and the experience you have with thermal imaging cameras. No matter if you are a novice or a thermal expert, FLIR Systems has the correct thermal imaging camera for you.

C2 BADLY INSULATED WALL

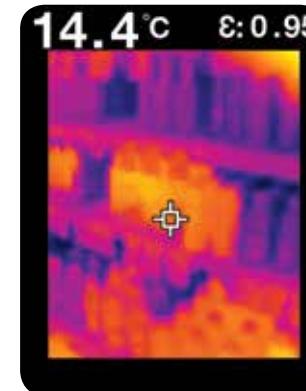

C2 OVERHEATED WALL SWITCH

| FLIR THERMAL IMAGING CAMERAS COMPACT INFRARED EVERYWHERE

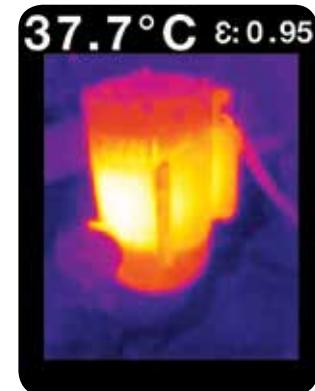

FLIR C2

The FLIR C2 is the world's first full-featured, pocket-sized thermal camera designed for electricians. Keep it on you so you're ready anytime to find hidden heat patterns that signal potential problem areas.

TG165 REFRIGERATOR

TG165 MOTOR

FLIR TG130, TG165 & TG167

The FLIR TG130, TG165 & TG167 Spot thermal cameras give you the advantage of thermal imaging to discover temperature issues you can't see with a typical spot meter. You'll work more quickly, and have confidence you didn't miss something vital.

| FLIR THERMAL IMAGING CAMERAS PRO

EASY TO USE

FLIR EX-SERIES

Infrared Cameras with MSX®

Easier than a smartphone, only FLIR's E4 thru E8 line offers such an unprecedented choice to new thermographers and seasoned pros alike, starting below 1,000€.

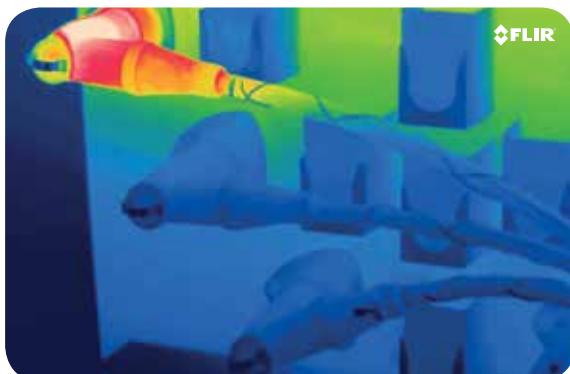

E8 ELECTRICAL PANEL WITH MSX

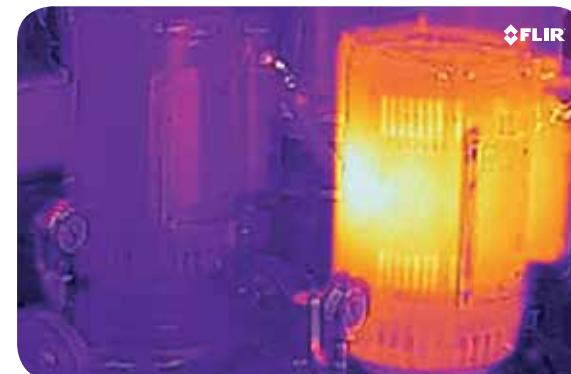

EXX TOUCHSCREEN

FLIR EXX-SERIES

Just like with the FLIR Ex-Series you have a variety of different resolutions to choose from. On top of that the variety of interchangeable lenses lets you switch to wide angle for capturing more of the scene in one shot or telephoto to see and measure temperatures on distant and smaller targets. Manual focus helps you dial in the sharpest clarity and finest accuracy. Features like MSX and a simple touchscreen make the Exx-Series a great tool for the professional thermographer.

EXX OVERHEATED CONNECTOR

EXX MOTOR WITH MSX

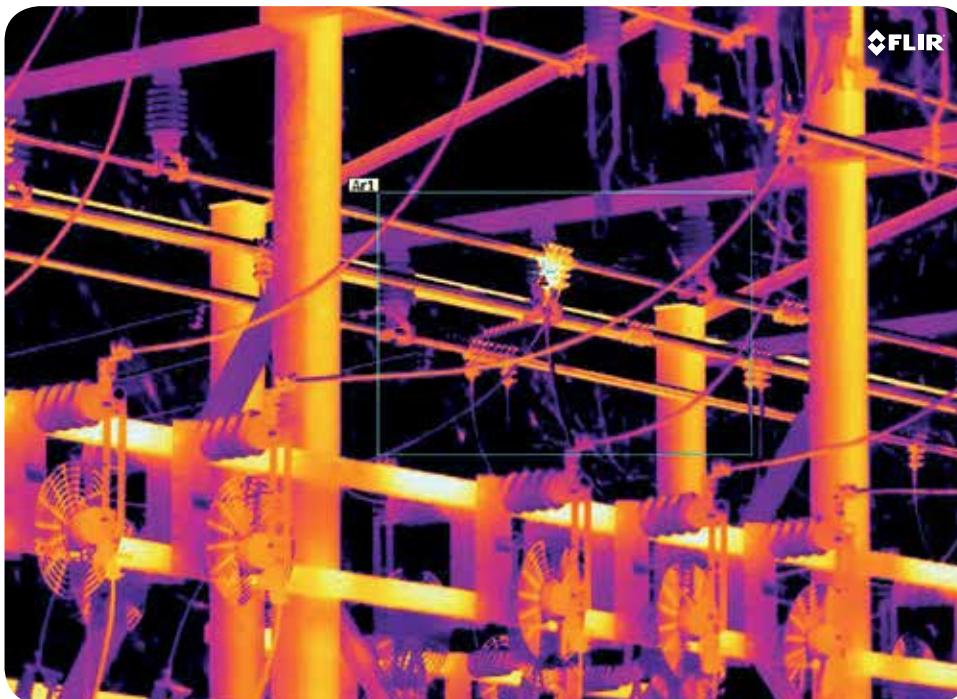

Connect to smartphones and tablets with FLIR Tools Mobile for Apple® and Android™ to stream video and import, process, and share images fast.

| FLIR THERMAL IMAGING CAMERAS EXPERT

INCREASE YOUR EFFICIENCY

FLIR T-SERIES

The T-Series cameras provide superior thermal resolution, an ergonomic rotating optical block, and fast auto-focus to help the busiest technicians get the best images easier than ever, even from the toughest angles. They are full featured thermal imaging cameras that will help you to do your daily job faster and more efficient than ever before. The top-of-the-range T1K produces images with a quality of no less than 1020 x 768 pixels. Optional lenses and other accessories give you room to modify your thermal imaging camera according to your changing needs.

The World's Sixth Sense®

FLIR Systems is the world leader in thermal imaging cameras. We produce a wide variety of thermal imaging cameras that can help you to detect problems before real failures occur. But FLIR Systems has more to offer than thermal imaging cameras only. For professional electricians and maintenance specialists we produce a product portfolio that will help them do their job faster and better than before.

| FLIR TEST & MEASUREMENT EQUIPMENT FOR THE ELECTRICIAN: MORE THAN THERMAL CAMERAS ONLY

FLIR VP50 Non-Contact Voltage Detector + Worklight

Rugged, Waterproof, CAT IV-Rated, and Light at the Ready

The FLIR VP50 is a tough, CAT IV-rated Non-Contact Voltage Detector featuring a combination of alerts.

FLIR CM72/CM74/CM78 Commercial Clamp Meters

FLIR's CM72, CM74 and CM78 Clamp Meters give you better access to wiring in hard-to-reach places, and provide 600A AC and up to 1000A AC/DC measurement capabilities you need for advanced troubleshooting.

FLIR TG Series Spot IR Thermometers

The FLIR TG54 and TG56 Spot IR (Infrared) Thermometers provide non-contact surface temperature readings. TG1xx Series Spot thermal cameras give you the advantage of thermal imaging to discover temperature issues.

FLIR CM82 / CM83 / CM85 True RMS Power Clamps

FLIR's CM82, CM83 and CM85 industrial-grade power clamp meters are engineered with advanced power analysis and variable frequency drive (VFD) filtering functions required by electrical troubleshooters.

FLIR DM Series True RMS Industrial Multimeters

FLIR's DM Series world-class digital multimeters offer advanced variable frequency drive filtering to help you accurately analyze non-traditional sine waves and noisy signals.

FLIR CM174 Imaging 600A AC/DC Clamp Meter

The FLIR CM174 Imaging 600A AC/DC Clamp Meter is the only clamp meter with the power to lead you to problems you can't see with a standard clamp meter. Featuring Infrared Guided Measurement (IGM) technology powered by an integrated FLIR Lepton®.

FLIR CM55 & CM57 / FLIR TA72 & TA74 Flexible Clamp Meters

The FLIR CM-Series Flexible Clamp Meters with Bluetooth® are ergonomic tools designed to simplify difficult current measurements. The FLIR TA-Series Universal Flex Current Probe accessories are designed to add capabilities, simplify challenges, and get the best readings with your existing meter.

FLIR IR Windows Infrared Inspection Windows

FLIR IR Windows help you perform inspections more efficiently and reduce the threat of arc flash injury significantly so you can get more done and stay in compliance with NFPA 70E requirements. FLIR's broadband crystal allows cameras to capture visible light pictures as well as thermal images and lets LED and laser illumination pass straight through for clearer visual assessments.
